PROFESSIONAL PROFILE

Computer Science undergraduate at VIT (2023–2027) with hands-on experience in machine learning (TensorFlow, LSTM), Flutter mobile development, and full-stack web projects.

Solved 190+ DSA problems on LeetCode. Seeking a software engineering or ML internship to apply technical skills in a practical setting.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science

Vellore Institute of Technology, India

09/2023 – 09/2027

Class XII (CBSE)

Modern Public School, Bhiwadi —

2023

Percentage: 80%

Class X (CBSE)

Modern Public School, Bhiwadi —

2021

Percentage: 89%

SKILLS

- Languages: C++, Java, Python, Dart, JavaScript, HTML, CSS
- Frameworks & Tools: Flutter, TensorFlow, scikit-learn, Git, GitHub, yfinance, AWS (EC2, S3)
- Web & App Dev: Responsive Design, REST API Integration, State Management (Flutter)
- Core Concepts: DSA, OOP, DBMS, OS, Computer Architecture
- Problem Solving: 190+ problems solved on LeetCode; 50+ problems from Striver's DSA Sheet (Arrays)

PROJECTS

Stock Market Predictor | Python, TensorFlow, LSTM, yfinance

- Built an LSTM-based deep learning model to predict stock prices using historical time-series data
- Applied data preprocessing, normalization, and sequence modeling techniques
- Evaluated model performance using MSE, RMSE, and MAE metrics
- Generated future price predictions using recursive multi-step forecasting

Club Radar – Club Management Platform | JavaScript, HTML, CSS, REST APIs

- Developed a web platform enabling students to discover and join university clubs
- Contributed to both frontend UI and backend API integration
- Implemented event listing and user interaction features for real-time engagement

Portfolio Website | HTML, Tailwind CSS, JavaScript, Supabase, EmailJS, GitHub Pages

- Built a personal portfolio with a live PostgreSQL contact system (Supabase) with Row Level Security policies and EmailJS email notifications
- Developed a private admin dashboard to view and manage incoming messages
- JAMstack architecture deployed on GitHub Pages

Resume Builder App (Flutter) – In Progress | Flutter, Dart

- Building a cross-platform mobile app to dynamically generate professional resumes
- Completed approximately 90% of frontend UI using Flutter and Dart
- Planning backend integration for data persistence and template generation

CERTIFICATIONS

- Google IT Support Certificate – Google
- IBM Certified Cyber Security Analyst – IBM
- Microsoft Certified: Security, Compliance, and Identity Fundamentals – Microsoft
- Introduction to Machine Learning – NPTEL
